This project was a new home installation with a budget of about \$250,000-\$300,000. The client's goal was to create a fun filled outdoor entertainment area with a pool & spa including outdoor bar and television. The designer's concept for this ultimate outdoor entertainment space took it's cue from the houses' California Bungalow Style façade. This style is reinforced by the use of materials such as flagstone throughout the hardscape and the wooden framework for the outdoor sports bar. The design is a homeowner's dream come true including a pool, spa, water feature, and fire pit. The sports bar area is equipped with flat screen television, and ample counter and seating space; as well as a side yard lawn area for the kids to romp in.
